FJO French Course 2018/2019

The Lisbon School welcomes the new graduates of the 2nd edition of the Functional Jaw Orthopedics French Course who will accompany us from September 2018 to July 2019.

We wish to thank all the graduates for their trust and for accepting this Functional Jaw Orthopedics challenge.

FJO Italian Course 2018/2019

The Lisbon School is already preparing the first edition of the International FJO Course open to Italian dentists.

it is an honner to receive the teachings of our great teacher Prof. Dr. Wilma Simões, one of the world's biggest names in Functional Jaw Orthopedics and the idealizer of the Simões Network.

Planas Direct Tracks Course

It will start already in December the second edition of the Planas Direct Tracks Course, taught by Prof. Dr. Maria Regina Brandão, the idealizer of the indirect Planas direct tracks method with plastis.

This training enables the professionals to perform an early treatment of malocclusion, without appliances, through the construction of the Planas Direct Tracks and selective griding, according with the Neuro-occlusal Rehabilitation principles.

How are our treatments at the **Lisbon Clinic**

MAY 2016

SEPTEMBER 2018

1.1 - EXTRA-ORAL PHOTOGRAPHS

MAY 2016

SEPTEMBER 2018

1.2 - INTRA-ORAL PHOTOGRAPHS

MAY 2016

SEPTEMBER 2018

1.3 - TELERADIOGRAPHY

MAY 2016

SEPTEMBER 2018

1.4 - POSTURE PHOTOGRAPHS

DIAGNOSTIC

Female patient with 8 years and 2 months, with distocclusion and open bite. Shows clear postural alterations. Has a hyperdivergent growth tendency and a reduced upper airway.

TREATMENT

Therapeutic posture change in pro-rotation, with bioelastic appliances SN3 and SN9 for a 24 months period.

CLINICAL RESULTS

Closing of the bite. Mandible with the middle line centered. Incisive Contact in DA Increased upper airway. Better posture, more symmetric and balanced.
