## FJO - Update and Improvement

The Lisbon School started on May 10th and 11th a new Course - Functional Jaw Orthopedics - Updating and Improvement. This course aims to deepen and update knowledge on the Simões Network (SN) appliances. Taught by Dr. Carina Esperancinha, this course will have the duration of 3 modules of 2 days each. For international students we will have one module of three days on December.

## Functional Orthopedic Appliances Construction Course

On the 15th of July will start a new edition of the Functional Orthopedic Appliances Construction Course. Aimed not only to Prosthodontists but also to Dentists and other health professionals who want to learn about this art. Taught by the prosthodontist of Dr. Wilma Simões, Ana Cristina Oliveira and by Dr. Carina Esperancinha, it will be days of intensive learning. Do not miss the opportunity to be part of this fantastic course that the Lisbon School has prepared for you.

## **FJO – International Course**

The Lisbon School is already preparing the next year. 2020 will start with a new FJO - International Course, taught in English.

Do not miss the opportunity to register and share with us the excellence in FJO.

## **FJO - Italian / Spanish**

With the 2019 FJO courses full, the Lisbon School is already preparing a new FJO course - Italian / Spanish. Starting in January of 2020, this new course will be taught in English with translation to Italian and Spanish.
